RE: Notification of a Newly-Identified Inactive Hazardous Substance Site
Ardee/Translite, Cleveland County, Shelby, North Carolina

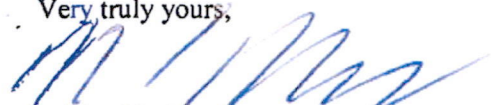

Dear Mr. Parris:

I have enclosed the completed form entitled "Notification of an Inactive Hazardous Substance or Waste Disposal Site." The form was completed in response to our recent (September 2011) receipt of laboratory analytical data indicating the presence of several constituents in groundwater at the above-referenced site, at concentrations exceeding the North Carolina 2L groundwater standards. Attached to this transmittal letter is a copy of the September 26, 2011 email received from Mr. Colin Day of the NCDENR Winston Salem Regional Office. Mr. Day indicated that the attached form should be transmitted to you within 90 days from the date of that email.

Summarized on the next page are the maximum constituent concentrations detected, compared with the respective 2L groundwater standard for the four constituents exceeding the standards. As indicated, the maximum concentrations of three of those constituents only slightly exceed the 2L standard: 1,2-dichloroethane at 2.0J ug/L (2L standard of 0.4 ug/L); tetrachloroethene at 19 ug/L (2L standard of 0.7 ug/L), and trichloroethene at 5.5 ug/L (2L standard of 3 ug/L). The only constituent with a relatively greater exceedence of the current 2L standard was 1,1-dichloroethene at 250 ug/L (2L standard of 7 ug/L). We note, however, that recent NCDENR website notices indicate that there is a move to raise the 2L standard for 1,1-DCE to 350 ug/L. The maximum detected concentration on site would not exceed this revised standard. Excerpts from NCDENR web site pertaining to the impending change in the standard are attached as the last page of this transmittal letter. Groundwater from the two temporary wells nearest the property line had no VOCs detected.

Based on the email from Mr. Day, we understand that NCDENR will assign a project manager for this site, who will be in contact with us in the future. Thank you for your assistance. We will await your communications.

Very truly yours,

Michael L. Manning

Subject: New Site Notification-PCE Discovery in Cleveland County

Dave:

Please find the attached notification form. As your site is a new one, located in Cleveland County and just discovered with PCE contamination from an above ground storage tank, the DWM-Superfund IHSB will have jurisdiction over it. Please send the attached notification form to Mr. Bruce Parris who is the supervisor for the IHSB Western Region. He will assign a project manager from either the Mooresville Regional Office or the Winston-Salem Regional Office. The assigned manager will send out a new site letter to your client who will then be required to submit a Site Cleanup Questionnaire to the IHSB to assist in determining whether the site will be a priority or a REC eligible one.

Please submit the attached notification form in both pdf and hardcopy to Mr. Parris within ninety days.

“NEW Rhodia (1,1-Dichloroethylene) Rulemaking Petition

On July 14, 2011, the Environmental Management Commission directed the Division of Water Quality to initiate rulemaking to amend the groundwater quality standard in Title 15A NCAC 02L .0202(g)(59) for 1,1-dichloroethylene from 7ug/L to 350ug/L based on a rulemaking petition submitted on behalf of Rhodia, Inc. (Rhodia Option 1) and to amend 15A NCAC 02L .0202 (DWQ Option 2) and 15A NCAC 02L .0113 (variance procedures) as provided by DWQ. In addition, the EMC directed DWQ to initiate rulemaking to amend 15A NCAC 02I .0501 (petitioning procedures)....”

Dear Mr. Parris,

Attached please find the signed and notarized notification form and a transmittal letter, both in pdf format, for a new site in Cleveland County. A hard copy is being sent to you via Federal Express for arrival on Monday, December 5, at the request of Mr. Colin Day as indicated below.

If you have any questions, please feel free to contact me via email or phone (864-380-6950) or reply to all addresses above. The Site Cleanup Questionnaire referenced below can be emailed to me also, and I will pass on.

Thank you.

NOTIFICATION OF AN INACTIVE HAZARDOUS SUBSTANCE OR WASTE DISPOSAL SITE

Please read instructions before completing and type or print in black ink.

I. SITE NAME AND LOCATION:

Site Name (one site per form) Ardee/Translite
Location (street address) 639 Washburn Switch Road
City Shelby US EPA ID# (if known) NCD986171007*
County Cleveland
Directions to Site Approximately five miles northwest of downtown Shelby. See attached USGS
topographic map (Attachment 1).

*Past ID# only for Specialty Lighting, former owner. According to Ardee/Translite, no hazardous waste has
been stored at or shipped from this site since 2008.

Attach a USGS topographic map or map of equal or reasonably similar scale (1 inch = 2000 ft.) showing
the location and vicinity of the site or facility. Label map with the site name.

IX. KNOWN OR SUSPECTED RELEASES OF HAZARDOUS SUBSTANCES OR WASTE TO THE ENVIRONMENT:

List all on-site spills, disposals and other releases of hazardous substances or materials containing hazardous substances.

Material/ Chemical Released (Known and suspected)	Physical State of Material (Use codes below)	Approx. Volume Released	Date of Release	Suspected Contaminants (Use codes below)	Source of Release (e.g. tank, buried drums, landfill, product spill, etc.)	Known or Suspected Contamination			
						Ground water	Surface Water	Sediment	Soil
1,1,1-trichloroethane	L	5-20 gal.	Approx. 1988	O	Indoor concrete floor, flow outside into concrete ditch.	<Enter "K" if Known and "S" if Suspected> K			S

Physical State Codes

G - Containerized Gas
L - Liquid
S - Solid/Powder
Sl - Sludge

A - Acids
Ab - Asbestos
Am - Ammonia
B - Bases
C - Cyanide

Codes for Suspected Contaminants

D - Dioxins
M - Metals
Mu - Mixed Municipal Waste
O - Organic Chemicals

P - PCBs
Pe - Petroleum Products
Ps - Pesticides
W - Waste Oil

X. TOTAL AREA OF ALL DISPOSALS, SPILLS, OR RELEASES OF HAZARDOUS SUBSTANCES OR WASTE:

- ☒ less than 1 acre
☐ 1 acre or more, but less than 5 acres
☐ 5 acres or more, but less than 10 acres
☐ 10 acres or more
☐ Unknown

XI. AVAILABILITY OF ENVIRONMENTAL ANALYTICAL DATA:

Do any environmental reports or laboratory analytical data exist for the site? ☒ Yes ☐ No
 If yes, attach reports or data to this form. Attached is the laboratory data summary from August 25-26, 2011 (Attachment 2).

XII. IDENTIFY WHETHER ANY OF THE FOLLOWING ARE PRESENT OR WERE PRESENT IN THE PAST AT THE SITE (*More than one may apply.*):

- | | | | | |
|---|-------------------------------------|--------------------------------|-------------------------------------|------------------------------|
| <input type="checkbox"/> Debris pile(s) | <input checked="" type="checkbox"/> | Tank(s) above ground * | <input checked="" type="checkbox"/> | Spill(s) (one spill in 1988) |
| <input type="checkbox"/> Land treatment of sludges | <input checked="" type="checkbox"/> | Septic tank(s) * | <input type="checkbox"/> | Wastewater lagoon(s) |
| <input type="checkbox"/> Landfill(s) or buried waste | <input type="checkbox"/> | Surface impoundment(s) | <input type="checkbox"/> | Drum(s) |
| <input type="checkbox"/> Tank(s) underground | <input type="checkbox"/> | Underground injection of waste | | |
| <input type="checkbox"/> Other (<i>specify</i>) _____ | | | | |

*Removed from the site or taken out of service in the past.

XIII. ACCESSIBILITY OF SITE (*More than one may apply.*):

- ☐ 24-hour security guard
☐ Security guard < 24-hour/day
☐ Physical barrier (steep bank, creek, walls, etc.)
 Describe physical barriers _____

☐ Site completely surrounded by fence
☐ Site partially surrounded by fence
☐ Locked gate
☐ Unlocked gate
☐ No control of access to site
☒ Other (*specify*) Facility is compliant with company supply chain security requirements.

XIV. WATER SUPPLY SOURCES:

Identify whether the following are present on site or on adjacent property.

	Present on site		Present on Adjacent Property		
	Yes	No	Yes	No	None Known
Spring	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
